Vinod Kumar Reddy

Technical Lead (Frontend)

vinodreddy.info07@gmail.com | +91 90422 38332 | LinkedIn | Web Profile

Summary

Proficient in frontend development utilizing HTML5, CSS3, JavaScript, and React.js, emphasizing performance optimization and scalable UI solutions.

Technical Skills

Web Technologies: HTML5, CSS3, JavaScript (ES6+), jQuery
Frameworks & Libraries: React.js, AngularJS, Next.js, Redux Toolkit
API Integration: RESTful APIs, AJAX
UI & Styling: Material UI (MUI), Tailwind CSS, SASS, Bootstrap, Flex Box, Grid
Design & Prototyping: Figma
Database: SQL Server
Cloud & Services: Azure, GitHub
Version Control: Git, SVN
Development Tools: Chrome Developer Tools, Visual Studio Code, Cursor AI

Education

Bachelor of Engineering ECE 2011
Excel Engineering College, Anna University of Technology, Coimbatore, TN.

Awards & Recognitions

• Business Excellence Award – **Solverminds Solutions & Technologies Pvt Ltd** (June 2019).
• Innovation Star Award – **Solverminds Solutions & Technologies Pvt Ltd** (Jul 2022).
• Spot Award – "Rising Star", **Photon Interactive Pvt Ltd** (Dec 2025)

Professional Experience

- Frontend expert with 10 years of experience in leading UI development, delivering scalable solutions, and optimizing application performance.
- Expertise in modern frontend technologies including HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, and jQuery.
- Proficient in the React ecosystem including React Router, Redux Toolkit, Context API, Hooks, and performance optimization techniques.
- Hands-on experience with UI component libraries and frameworks such as Material UI (MUI), Bootstrap, and Prime React.
- Good knowledge of JavaScript frameworks including AngularJS and familiarity with Next.js.
- Experience working with CSS preprocessors like SASS and LESS for modular and maintainable styling.
- Strong experience in building responsive web applications using CSS Grid, Flexbox, Media Queries, and BEM methodology.
- Experience with cross-browser compatibility and cross-device testing using tools like Browser Stack.
- Strong knowledge of accessibility standards (WCAG) and ARIA roles to ensure inclusive and user-friendly applications.
- Strong focus on performance optimization using lazy loading, code splitting, and efficient rendering techniques.
- Experience in REST API integration, asynchronous data handling, and state management.
- Familiar with Micro Frontend architecture and modular application design.
- Experience working with CI/CD pipelines using GitHub and Azure DevOps.
- Comfortable working across multiple operating systems including Windows, macOS, and Linux environments.

Experience

Photon Interactive Pvt Ltd | Chennai
Technical Lead I **Sep 2025 to Present**

Colgate Palmolive Company
Role: Technical Lead (Front-End)
Tech: React.js, jQuery, Material UI, AEM, Tailwind CSS, SASS, GitHub
- Led end-to-end frontend development and defined scalable UI architecture.
- Evaluated existing applications for defects or improvements in functionality or performance.
- Developed reusable components and standardized coding practices across the team.
- Improved application performance using lazy loading and optimized rendering techniques.
- Collaborated with stakeholders to define project requirements.
- Integrated AEM components (HTL, Templates, Experience Fragments) for dynamic content management.
- Ensured accessibility (WCAG) and cross-browser compatibility across applications.

Solverminds Solutions and Technologies Pvt Ltd | Chennai
Senior UI Developer **Sep 2017 to July 2025**

SONATA (Stowage Optimizer & Analytics Assistant
Clients: Hapag Lloyd, Emirates Shipping Line, ALX, BWL
Role: Team Lead / Frontend Developer
Tech: React.js, Material UI, Azure, Tailwind CSS, SASS
- Designed and developed complex analytics dashboards with large-scale data handling.
- Optimized UI performance and improved user experience across modules.
- Led a team of developers and ensured timely delivery of modules.
- Implemented efficient state management and API integration strategies.
- Collaborated with backend teams for seamless data flow and issue resolution.
- Participated in Agile ceremonies and sprint planning.

BCAP (Bulk Carrier Auto Planning)
Client: MTI Co. Ltd
Role: Frontend Developer
Tech: React.js, Material UI, Git
- Developed interactive planning modules with optimized UI workflows.
- Fixed performance bottlenecks and improved UI responsiveness.
- Built reusable and maintainable components for scalability.
- Integrated REST APIs and handled asynchronous data processing.

MACK (Managing Application Content and Knowledge)
Clients: NYK, Socotra, KLSM
Tech: HTML5, CSS3, JavaScript, Bootstrap, AJAX
- Developed enterprise-level web modules with dynamic content integration.
- Implemented responsive UI using modern CSS techniques.
- Ensured cross-browser compatibility and resolved UI issues.
- Collaborated with QA teams to identify and fix defects.

Hurix Systems Pvt Ltd (Forte Solutions Pvt Ltd) | Chennai
Consultant-Media Developer **May 2013 to Oct 2014**

Journeys (HMH Publishing)
Role: Frontend Developer
Tech: HTML5, CSS3, JavaScript, Bootstrap

- Built interactive modules to enhance user engagement.
- Developed responsive UI for e-learning platform.
- Worked closely with designers to implement UI/UX improvements.

Roles And Responsibilities

- Designed and implemented UI layouts and components based on client requirements and wireframes.
- Developed scalable web application modules using React.js, Redux Toolkit, and React Hooks, following best practices for performance.
- Built reusable components using both class-based and functional approaches to improve code maintainability and reusability.
- Developed responsive web pages using HTML5, CSS3, and Material UI, ensuring consistency across multiple devices and screen sizes.
- Collaborated closely with UX/UI designers to translate design concepts into interactive, user-friendly, and accessible interfaces.
- Led a team of 4 frontend developers by assigning tasks, conducting code reviews, and tracking progress to ensure timely delivery.
- Integrated frontend components with backend RESTful APIs and worked closely with backend teams to resolve technical issues.
- Managed version control by committing code, raising Pull Requests (PRs), and reviewing/approving team PRs using GitHub and Azure DevOps.
- Identified and resolved cross-browser compatibility issues across major browsers such as Chrome, Firefox, Safari, and Edge.
- Worked closely with QA teams throughout testing phases to analyze, troubleshoot, and resolve defects efficiently.
- Optimized application performance using techniques such as lazy loading, code splitting, and efficient rendering strategies.
- Created and customized AEM Editable Templates, Experience Fragments, and Style Policies.
- Prepared and shared daily/weekly status updates with clients and stakeholders, ensuring clear and transparent communication.
- Participated in Agile ceremonies including sprint planning, daily stand-ups, and retrospectives. Contributed to performance tuning, UI consistency, and overall user experience improvements across applications.
